Dear Mr. Jackson:

Re: Interstate Brick Company, Henefer Stockpiles, S/043/011, Summit County, Utah

Due to a data entry error which occurred in June of 1989, the request for the annual report for the above referenced operation was mistakenly sent to Interpace Industries (Interpace), who was listed as the operator for the Henefer Mine, S/043/010, Summit County. Interpace filed a Notice of Intent to Commence Small Mining Operations (NOI) for the Henefer Mine in May, 1989. The NOI was approved, but Interpace never mined it. Because of this error, the Division of Oil, Gas and Mining (Division) sent the request for annual reports for the years 1989 and 1990, for the Henefer Stockpiles, S/043/011, to Interpace.

From review of current and archived Division files, we find that in 1978, the Division had signed an agreement regarding the transfer of the open pit Henefer Mine, ACT/043/002, to Summit County for use as a sanitary landfill, with Summit County then being held responsible for ultimate reclamation of the site, once the pit is filled up.

In June of 1989, the Division received a NOI from Interstate Brick Company to commence mining of the existing stockpile at the Henefer site. This NOI was found to be complete, by the Division in July, 1989, for removal of the stockpiled materials only.

At this time, the Division requests that Interstate Brick complete the enclosed annual report forms for the years 1989 and 1990 for the Henefer Stockpile, S/043/011. A member of the Division staff will conduct an inspection of the site as soon as scheduling and weather conditions allow.
